I was exposed to the poisoned water at the Pease International Tradeport, previously Pease AFB. It has been extremely frustrating because there are clear links to serious health issues via other sources but no one, the Air Force, State of NH or the Pease International Tradeport, is stepping up to communicate honestly about the health effects. We should no longer tolerate any levels of these chemicals; we are long past a 'Health Advisory' being of any assistance of unknowing citizens.

This kind  
of thing  
has to be  
investigated  
and known  
to the  
public  
about the  
contaminant  
that are in  
the water  
supplies in  
so many  
areas, yet  
the public  
is unaware  
because of  
the  
secrecy of  
those who  
did the  
contaminatir  
in the first  
place.
